

Job Title: Calibration & Repair Engineer Apprentice

Department: Calibrationhouse

Reports Direct: Calibrationhouse Quality Lead

Location: Peterlee, Durham, SR8 2SW

Job Purpose

Job Type:	Permanent, Full Time
Hours:	38 hours per week, Monday to Friday
Start Date:	September 2025

As a Calibration & Repair Engineer Apprentice you will be part of a team responsible for, repair, test, calibrate and adjust a wide range of test and measurement equipment from a wide range of electrical and physical parameters.

You will become an integral member of the team and make a significant contribution to business in achieving its ambitious business growth plans.

Responsibilities

- Observing, learning, and understanding a wide range of engineering skills and processes whilst under the guidance of skilled technical staff.

- Demonstrate these skills and processes as the training period progresses by working independently or as part of a team, to undertake tasks as instructed and to increase overall contribution to the department.
- To undertake and successfully complete suitable college and/or practical training course(s) throughout the training period, achieving the academic grades and practical skills in order to entitle yearly progression.
- Learn and understand the importance of Health and Safety within the workplace.
- Learn how to maintain workshop equipment and keep it in good working order.
- Maintain a logbook over the duration of the apprenticeship, recording projects that have been undertaken and skills that have been learned.
- Maintain and ensure good housekeeping of the workplace.
- Any other reasonable duties appropriate to grade and role as required.
- Adhere to all policy and legislative requirements in respect of Health & Safety and Environmental legislation.

KPIs
