Calibration services

Accurate readings for peace of mind

Regular calibration gives you confidence that your instrument readings are correct. Accuracy matters because a faulty reading could cause an accident or lead to expensive manufacturing rework.

Calibrationhouse provides hassle-free calibration, great customer service and competitive prices.

We calibrate, service or repair all types of equipment at our accredited laboratory in Peterlee, County Durham.

Leaders in our field

- Free quotations
- UKAS & BSI accredited
- Annual reminders
- Before and after results
- Detailed calibration certificates

“Calibrationhouse is the best one-stop shop for our calibration and repair needs. We are always impressed by their speed of delivery and quality service. We are confident that as our business expands, Calibrationhouse will continue to exceed our expectations.”

Bob Fleming IOSH, Technical & Compliance Manager
Hawkesworth Appliance Testing Ltd

 **3 day turnaround**

Our standard calibration turnaround time is just 3 days. You can reduce this downtime with our on-site service.

 **30 years' experience**

We have over 30 years' experience of calibrating, servicing and repairing sensitive test and measurement equipment. You can rely on the knowledge and unrivalled skills of our qualified engineers.

UKAS & BSI accredited

Q 05356

On-site calibration

Less downtime for you when we work on your site

We understand that your time is money. We prefer to keep your valuable assets safe and accurate by moving them as little as possible. So by coming to you, we can reduce your downtime, carriage, insurance and equipment hire costs. Keeping your kit at your site is miles more convenient for you...and that's what matters to us.

Sensitive equipment will have several weeks of downtime over its lifespan but Calibrationhouse reduces this to just a few days by coming to your site. Our unique and practical service aims to keep your downtime to the bare minimum, often to less than one hour per unit for calibration. Leaving you to do more of what you're good at.

Leaders in our field

- International coverage
- Tailored to your needs
- Competitive pricing
- Minimal downtime
- Total assurance
- UKAS accredited calibration available

“

"We have been really impressed with the service Calibrationhouse provides for our in-house equipment calibration. They really have been a breath of fresh air. Simple to arrange site visits mean our test equipment is out of service for a minimum amount of time. Combine this with very competitive service costs and a first class service - it really is a no brainer for us."

Ross Needham, Wrexham Maelor Hospital, Wales

Account manager

Your own dedicated account manager will organise your calibration, service or repair call. Your account manager ensures you receive a calibration reminder every year, keeps your service plan up-to-date and is your first point of contact at Calibrationhouse.

International coverage

Our specialist mobile, international and sea-based calibration teams are available worldwide, providing a rapid response to equipment on every continent.

Service, spares & repairs

We will fix it

Our expert engineers have detailed product knowledge and the latest diagnostic equipment. They'll find the fault and fix it fast. Our repairs are of such high quality that we cover them with an automatic three month guarantee. Our range of cover plans are designed to ensure that you are operational at all times.

We also provide a commission and installation service for Clare products, from un-boxing to setting test parameters and locating the unit in its permanent position.

Parts stocked for many brands

If you repair your own instruments, we stock a wide range of components and spare parts.

To find out more or to book your equipment in for a calibration, service or repair call us on 0191 587 8736, email info@calibrationhouse.com or visit our website www.calibrationhouse.com
