

PATMobile

Save and manage PAT test records on your smartphone.

Seaward is taking the original PAT testing app to the next level. Struggling to find your PAT records? **PATMobile** literally puts them in the palm of your hand.

PATMobile app is the perfect answer for those who want a simple yet powerful record keeping solution for their PAT results. Never get caught out again when you turn up to site and are asked for a copy of your PAT records: PATMobile allows you to display your PAT records on your smartphone or create and share a professional pdf report on the spot.

Your PrimeTest partner

PATMobile is designed to be the perfect accompaniment to Seaward's PrimeTest range of manual PAT Testers. Used together, they give you the tools to scan barcodes, take photos, store your PAT results, print a label and generate a report - with just a few taps thanks to our simple and intuitive user interface design.

The PrimeTest range of PAT testers and the free **PATMobile** app is the ideal solution for the small business wanting to test their own tools and appliances. The simple design of the testers and app means it's quick and easy to get up and running with access to unrivalled support, training and online resources from Seaward, so you can relax knowing that we have your back.

Key Features:

- > Fast and intuitive user interface
- > User customisation
- > Record your PAT results then search and filter to get the data you need fast
- > In-built calculators for risk assessments and resistance
- > Auto-incrementing asset ID
- > Scanning of both 1D and 2D barcodes, including Seaward's Apollo QR codes
- > Label printing via Bluetooth with our Pro printer (purchase of printer and labels required)
- > Take photos of the appliances tested and include in reports
- > Use the dashboard feature to keep track of out of date items
- > Export professional looking PDF reports or a CSV spreadsheet containing your results
- > Available on Android devices
