Test n Tag Elite 2

A rugged battery-powered mobile printer which prints durable synthetic asset labels.

Long battery life and high impact resistance make it ideal for use in the field, whatever the environment.

It has a high speed processor and large memory for quick and efficient processing of complex labels, graphics and fonts using bluetooth wireless technology.

Dimensions: (W x H x D) 120 x 150 x 62mm

Weight: 631g (including battery)

Supplied with:

> Battery charger

> Battery pack

> Belt clip

> Label roll

Key Features:

> Rugged design

> Portable

> Long battery life

> Bluetooth connectivity

> White labels available - (52 x 25mm and 52 x 74mm)

> Small labels ideal for small areas such as plug tops

> Compatible with Rigel Medical testers

Together, we're making our world a safer place. Every. Single. Day.

Test n Tag Pro

A lightweight and portable battery powered mobile printer.

The Test n Tag Pro prints durable synthetic labels which can include barcode, asset number, test date, next test date, user name and test status (dependent on which tester is being used).

It can be used with a rechargeable battery pack or primary cells and is ideal for use with the Apollo+ series testers via Bluetooth, PrimeTest 250+ via serial cable or manual testers via the PATMobile Android app.

Dimensions: (W x H x D) 95 x 65 x 128mm

Weight: 446g (including battery & full roll of labels)

Supplied with:

> Universal charger

> Battery pack

> Primary cell adapter

> Belt clip

> Serial connection cable (serial version only)

> Label roll

Key Features:

> Lightweight and portable

> Cost-effective - low start up cost

> Bluetooth or serial connectivity (depends on instrument)

> Can be used with rechargeable battery pack or primary cells

> White labels available - (52 x 25mm and 52 x 74mm)

> Small labels ideal for small areas such as plug tops

> Compatible with Rigel Medical testers

Together, we're making our world a safer place. Every. Single. Day.

Desk Test n Tag

A desktop thermal transfer printer for long-lasting labels, available in different colours and sizes to suit your application.

The printer automatically produces test tags that display test results, equipment identification, date of test, barcode ID and can be easily customised to add your own company logo, address and website.

The automatic tag system produces synthetic, durable tags that are printed immediately after test. To give you complete flexibility, duplicate tags can also be printed for attachment to contacts etc.

Dimensions: (W x H x D) 213 x 188 x 314mm

Weight: 2.8kg

Supplied with:

> Power supply
> Connection cables
> White label roll
> Black ink ribbon

Key Features:

> High-quality, durable labels

> Labels available in a variety of sizes and colours

> Customisable test labels - add your own pass and fail designs

> Cost-effective label printing

Together, we're making our world a safer place.
Every. Single. Day.

Bluetooth 2D Elite Scanner

A portable asset label 2D laser scanner with Bluetooth interface.

It is extremely compact and lightweight, making it ideal for mobile applications with a USB rechargeable lithium-ion battery. It can read 2D barcode formats and reads 1D barcode formats code 39, code 93 and code 128.

Dimensions: (W x H x D) 36 x 83 x 21.5mm

Weight: 57g

Supplied with:

> Internal rechargeable battery

> USB lead

> Carry strap

Key Features:

> Read QR (2D) codes

> Read metallic labels

> Lightweight & portable

> Wireless Bluetooth connectivity

> Compatible with Apollo+ series of testers

Together, we're making our world a safer place. Every. Single. Day.
