

PATGuard 3

The ultimate PAT testing software with time management and health and safety reporting.

PATGuard 3 is an easy-to-use software program which enables you to record, store and report on a range of health and safety requirements including PAT testing, risk assessments and other workplace test and inspections. Tag records with images as visual evidence, schedule retest periods and produce professional reports and certificates for total traceability.

PATGuard3 also now includes an exciting software package, Time Manager 3, which provides clear time management facilities for Seaward downloadable PAT testers.

The software is compatible with a wide range of testers, including Seaward's Apollo+ Series.

PATGuard 3 is available to buy online, and you can download your free 30 day trial from www.seaward.com/PG3

Why buy PATGuard 3?

- > Intuitive user interface for efficiency and ease-of-use
- > Tag photos to sites, locations, asset IDs and test results
- > Provides clear time management information with Time Manager 3
- > Electrical risk assessment tool quickly determines risk-based retest periods for electrical appliances
- > Universal risk assessment tool calculates risk score for any workplace hazard
- > Extensive range of detailed and summary reports, including test and inspection reports for fire detection/alarm systems and emergency lighting
- > Create professional viewer CD for read only access to test records
- > Create professional invoices

SEAWARD
ELECTRICAL SAFETY TESTING & MEASURING

PATGuard 3

The ultimate PAT testing software with time management and health and safety reporting.

Comprehensive PAT Records

PATGuard 3 offers total traceability when it comes to maintaining portable appliance testing records, enabling images taken with Apollo 600+ or any camera or phone to be tagged against sites, locations, asset IDs and test results – providing evidence of visual inspection. Tagged images can be included in the vast range of reports that PATGuard 3 can create. These are easily stored, printed or emailed.

A Risk-Based Approach

Universal and electrical risk assessment tools are built into PATGuard 3. The electrical risk assessment tool can be used to ensure a risk-based approach is taken to portable appliance testing; automatically determining retest periods for assets proportionate to risk, as required by the 4th edition of the IET Code of Practice for In-Service Inspection and Testing of Electrical Equipment.

Complete Health and Safety Management

A range of additional health and safety test and inspection certificates are built into PATGuard 3, allowing records for the inspection of emergency lighting and fire alarm systems to be kept and easily managed.

Simple Asset Management

PATGuard 3 features a simple checkbox system which helps to keep track of assets which are in service. It is also easy to keep asset repair and maintenance records, including any associated costs where applicable. The ability to tag images next to asset records has an added benefit of aiding quick and easy identification of appliances and equipment to make life simpler when it comes to retesting.

Time Manager 3

Time Manager 3 is an exciting software package, now included with PATGuard 3, and provides clear time management facilities. It's ideal for companies that manage off-site or remote testing staff and need to manage their business in a time efficient manner. It runs as part of PATGuard 3 software ensuring total confidentiality and provides clear information on the user's activity such as number of tests taken, and time of tests. It helps you to understand how the testers are used so that you can easily identify where improvements in staff training is needed. This will enable you to help your staff to test more efficiently. The graphical data display lets you see the tester's usage simply and quickly.

PATGuard 3 / Time Manager 3 Users:

- > Duty Holders
- > In-house PAT Testers
- > Health & Safety Managers
- > Health and Safety Contractors
- > Professional PAT Testers
- > Electrical Contractors
- > Facilities Managers
