

## Why has my PATGuard 2 program expired?

This message is referring to your 30 days free Software Technical Support that comes with the initial software purchase and commences from the first activation of your Serial Number. This does not effect your program however once the 30 days support has expired you will require an additional Support Agreement to access our Technical Support Helpline.

Do not worry if you have already purchased a Support Agreement - this is a standard message built into the program to serve as a reminder and in no way effects the validity of any Support Agreement you may have.

If you do not have a valid PATGuard 2 support contract please [click here](#).

Alternatively you can upgrade to PATGuard 3 which includes free support. To download a free trial, purchase, or upgrade [click here](#).

If you require more help, please contact us at <https://www.seaward.com/login/enquire/>.
